BRAILLELite

Braille Lite M20 and M40

Welcome to the next generation of the world's most popular refreshable Braille and speech Note-Takers. The Braille Lite M20 and M40 deliver more power, functionality and connectivity.

Sleek New Design

It's lighter and more compact than previous models. At approximately 2 pounds, it features an ergonomic 8-key Perkins-style keyboard and contoured lines. Braille Lite is available in 20-cell and 40-cell models. No other Note-Taker packs more into such a compact design.

Stay Connected

Braille Lite meets your communication needs with an internal 56K modem and POP3 email messaging. Just plug it into any standard phone line and you're ready to send and receive emails using the service provider of your choice.

Unparalleled PC Access

The M20 and M40 are designed for computer access with the finest of screen readers, JAWS® for Windows®. When connected with JAWS, it becomes a dynamic 20-cell or 40-cell refreshable display for your PC complete with cursor routers. Exclusive Whiz Wheels allow for the best Braille navigation of any Braille display, providing rapid scrolling by adjustable increments for more efficient reading, editing and navigation.

Unmatched File Management

The M20 and M40 feature 14MB of internal memory plus our unique removable CompactFlash™ port delivers unlimited file storage. WinDisk file management software offers seamless file transfers to and from your PC. A switch toggles you instantly from Note-Taker to computer mode retaining your position in each.

each purchase

A Better Value

The 20 and 40 cell models offer more cells at a better price. Its 30-plus hours of battery use between charges surpasses other Note-Taking devices. And, Whiz Wheels enable more flexible Braille access. For hard copy Braille or print output, simply connect directly to a printer or Braille embosser.

- Whiz Wheels are programmable to scroll by line, sentence or paragraph. Detents indicate movement through a document.
- Speech synthesizer features variable tone, rate, pitch, and more.
- Grade 2 Braille translation in Braille input mode, and output to Braille embosser.
- Includes leather carrying case and strap, all documentation and cables.
- 30-day money-back satisfaction guarantee.
- One-year product warranty.
- Renewable, annual Product Maintenance Agreements available.
- WinDisk software is included at no charge with purchase.

Connect Outloud Web Access Software Is Included

You can access the Internet through speech and Braille output with Connect Outloud. Surf the web, send and receive email and create documents in your easy to use Freedom Scientific FS Editor word processor. Connect Outloud works with the Windows® Desktop, Windows Explorer and many other applications and accessories.
