

Freedom Scientific CONNECTOutloud

Access the Internet with Ease

Connect Outloud is an easy to use web access tool for blind or vision impaired computer users. It offers speech and Braille output to the web. Send and receive email and create documents in your easy to use Freedom Scientific (FS) Editor word processor with spell check. Connect Outloud works with the Windows Desktop, Windows Explorer and many other applications and accessories.

Web Access
Software

Getting Started is a Snap

Connect Outloud has an interactive talking install that allows you to get started without sighted assistance, and its Tutor Mode helps you learn its easy to use features. Connect Outloud is an ideal way to start learning and using a computer. The beginner to the experienced computer user will enjoy the freedom of the software's

simple interface with no complicated configurations to learn or menus to navigate.

Just Install, Adjust Your Speech Rate, and Go

Connect Outloud is the most exciting new access tool on the market and it provides an easy transition to the full JAWS® for Windows screen reading program.
